

Géométrie

L'angle droit

- 1 Pour chaque forme entoure les angles droits:

- 2 Entoures seulement les angles droits:

- 3 Indique combien il y a d'angles droits:

4 angles droits

1 angle droit

4 angles droits

Géométrie

Les côtés

- 1 Pour chaque forme indique le nombre de côté:

4 côtés

3 côtés

12 côtés

5 côtés

4 côtés

8 côtés

5 côtés

3 côtés

- 2 Colorie les formes qui ont trois côtés en vert, quatre côtés en rouge et cinq côtés en bleu:

Géométrie

1 Classe les formes dans le tableau :

Six côtés	huit côtés	dix côtés
A - D -	B - C -	E - F - G

Le carré et le rectangle

1 Colorie en bleu les rectangles et en rouge les carrés :

2 Complète la forme avec ta règle pour réaliser un carré :

3 Complète la forme avec ta règle pour réaliser un rectangle :

4 Ecris si il s'agit d'un carré ou d'un rectangle :

rectangle

rectangle
